2004
Rhode Island
State and Municipal Law Enforcement
Technology Survey

The Rhode Island Justice Commission is pleased to release the results of the annual State and Municipal Law Enforcement Technology Survey. The survey continues to be a valuable tool for law enforcement and criminal justice agencies to share "best practices" information statewide. This year, in those categories where feasible, we have shown a three-year comparison.

As always, the Rhode Island Justice Commission appreciates your continued interest and support in the programs we administer. We look forward to further assisting your agencies as we strive to improve the criminal justice system in Rhode Island.
